# HOUDA HOUSSEINI

Multimedia Engineering Student | Web & Mobile Developer | Co-Founder, Digital Aura

Baalbek, Lebanon | +961 71 644 310 | houdahousseini8@gmail.com | linkedin.com/in/houda-housseini-10509b351

## PROFESSIONAL SUMMARY

Multimedia Engineering student and co-founder of Digital Aura, a digital studio delivering custom websites and personalized digital invitations. Hands-on experience across web development (React, Node.js, MongoDB), Android applications, and Unity game development, combined with a strong eye for branding and visual design. Passionate about building creative, user-focused digital products and eager to contribute technical and design skills to a professional team.

## PROFESSIONAL EXPERIENCE

**Co-Founder & Web Developer — Digital Aura** *2026 – Present*

*Digital studio for custom websites and personalized digital invitations*

- Co-founded and operate Digital Aura, creating elegant, custom websites for businesses and personalized digital invitations for weddings and special occasions.
- Translate each client's vision into a tailored design, adding thoughtful layouts and interactive details that make every project unique.
- Manage projects end to end: client consultation, concept, design, development, revisions, and final delivery.
- Build responsive, mobile-friendly web experiences and handle the studio's branding and online presence.

**Intern — Lebanese Organization for Studies and Training**

- Developed a smart mobile application for the organization as part of a team.
- Analyzed user needs and system requirements to define the app's features.
- Improved the user experience and interface design.

**Intern — Slangit**

- Contributed to software and digital development tasks within a professional team environment.
- Supported problem-solving on real-world technical assignments.
- Strengthened professional workflow, collaboration, and communication skills.

## EDUCATION

**Bachelor of Engineering in Computer and Communications** *2022 – Present*

*Major: Multimedia Engineering and Networks | Antonine University, Lebanon*

**GPA:** 83/100

## PROJECTS

**Teta's Kitchen — Web Application** | *React, Node.js, MongoDB*

- Built a Lebanese recipe website with a modern, user-friendly interface and interactive components.
- Implemented an "AI Chef" feature that provides smart recipe suggestions.

**Endless Runner — 3D Game** | *Unity, C#*

- Created a 3D endless runner with player movement, scoring, levels, obstacles, and collectibles.
- Integrated sound effects and animations to enhance gameplay.

**Smart Home — Android App** | *Java, SQLite*

- Developed an Android app with a login/signup system and a local SQLite database.
- Structured the interface with Fragments and stored user settings with SharedPreferences.

**3D Coffee Shop Environment** | *Unity*

- Designed a realistic 3D coffee station scene with lighting, materials, textures, and composition.

**Houda Couture — Branding Project** | *Brand Identity*

- Created a fashion brand identity for young women, including logo, color palette, and visual guidelines, with a concept for digital presence and an online store.

**Multimedia Lab Projects** | *Video & Sound Editing*

- Produced academic multimedia content using storytelling, sound synchronization, visual effects, and transitions.
